

**APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of filing in State Engineer's Office..... AUG 26 1994

Returned to applicant for correction.....

Corrected application filed.....

Map filed..... FEB 8 1991 Under 55788

The applicant..... Kinder Limited

Post Office Bopx 12550, of..... Reno
Street and No. or P.O. Box No. City or Town

Nevada 89510, hereby make...^S application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a
 copartnership or association, give names of members.)..... Nevada Limited Partnership - Stan

Kinder, managing partner

1. The source of the proposed appropriation is..... Underground
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is..... 0.5 c.f.s., 23.1 AFA.....second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for..... Industrial
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered.....

(c) Other use (describe fully under No. 12. "Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point..... SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, T.19N., R.21E.,
Describe as being within a 40-acre subdivision of public

MDB&M, or at a point from which the SE corner of said Section 4 bears South
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

67° 00' East, 1,388 feet

6. Place of use..... within portions of Section 4, T.19N., R.21E., MDB&M
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about..... January 1.....and end about..... December 31....., of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
 specifications of your diversion or storage works.)..... drilled well, submersible motor and pump,
State manner in which water is to be diverted, i.e. diversion structure, ditches and

pressure storage tank, supply line (1 $\frac{1}{2}$ " diameter) to process area
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works Existing
10. Estimated time required to construct works Existing
If well completed, describe works.
11. Estimated time required to complete the application of water to beneficial use 2 years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.
(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.5 cubic feet per second, but not to exceed 23.1 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before November 14, 1995

Proof of completion of work shall be filed before December 14, 1995

Application of water to beneficial use shall be filed on or before November 14, 1997

Proof of the application of water to beneficial use shall be filed on or before December 14, 1997

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed DEC 11 1995

Proof of beneficial use filed _____

Cultural map filed _____

Certificate No. _____ Issued JAN 24 2001

WITHDRAWN BY APPLICANT

Justin Ricci, P.E. STATE ENGINEER

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.
State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this 14th day of August, 1995

A.D. 1995

R. Michael Turnipseed, P.E.
State Engineer

(PERMIT TERMS CONTINUED)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

Attachment for Kinder Limited Application for Permit to Appropriate
the Public Waters of the State of Nevada

Item 12. Remarks

Please use map on file at the DWR under Application 55788 to support the proposed point of diversion and place of use.

This application is for water use at a High Explosives Plant with 15 employees. The plant has been in existence since 1974. A permit was issued under Application 55788 but the amount of water granted was only a temporary allowance under the provisions of NRS 533.371 for a finite period of time. This application is to provide for a continuing source of water at the plant after Permit 55788 expires in 1997.

The amount of water requested in this application (23.1 AFA) is outlined under Items 1, 2, 3 and 4 of the September 10, 1991, letter to Tony Greene, Division of Water Resources (DWR), from William A. Nisbet, PLS. This letter is of record at the DWR under the file for Permit 55788.
